One of the main purposes of cooperation is to set up a scheme designed to provide financing and banking services for future investment projects that could be beneficial for the economic development of the BRICS countries.

The participants of the BRICS interbank cooperation mechanism are the Brazilian Development Bank (BNDES), State Corporation «Bank for Development and Foreign Economic Affairs (Vnesheconombank)» (Russian Federation), Export-Import Bank of India, China Development Bank Corporation, Development Bank of Southern Africa (DBSA).

On the basis of agreements that have been signed within the framework of the BRICS interbank cooperation mechanism, the member banks have taken steps towards developing multilateral financial cooperation within the BRICS countries and created basic mechanisms for settling payments and financing investment projects in local currencies.

In the course of the official ceremony at the 6th BRICS Summit, interbank cooperation mechanism member banks signed an Agreement on Cooperation in innovations in the presence of Heads of State. The Agreement provides for the BRICS financing development institutions to support innovation activity and would help to ensure sustainable growth and inflow of investments in infrastructure sectors of economy and in energy efficient and high technology manufacturing sectors.

One of the major partners of Vnesheconombank in China is China Development Bank (CDB) being a competent development institution. Vnesheconombank and CDB initiated and became active partners in the Interbank Association of Shanghai Cooperation Organization (estab-
lished in October 2005) and BRICS interbank cooperation mechanism (established in March 2010). The major line of cooperation between CDB and Vnesheconombank both in the context of multilateral mechanisms of interbank cooperation and on a bilateral basis is the implementation of collective investment projects.

I believe that we have huge potential for promoting further cooperation», says Vladimir Dmitriev, Chairman VEB. Over the past period VEB and CDB have undersigned credit agreements for a total amount of over 10 billion US dollars. Among Russian financial institutions VEB is still one of the heaviest borrowers of China Development Bank.
